Quest for a new secretary for the board of SSS

As announced in our SSS-News #18 (end of December 2011) the board of our organization has to appoint a new secretary. Dr. Marco Bernasconi has served since 2007 as Secretary of the Swiss Systematics Society and ended his term as secretary by the end of 2011. We are grateful for the very important service that Marco provided to SSS. The Board eagerly welcomes any applications from members of SSS to serve as Secretary. In case you are interested in providing service to our organization for promoting systematics in Switzerland please contact any member of the Board for further details.
